

Shared Owners on Well S-35:

Email and website notice will announce maintenance on the Chlorination unit. Maintenance may result in a chlorine taste in your water for a day or so and may want to prepare by...

1. Collecting some drinking water in containers the day before.
2. Buying bottled water in preparation.
3. Boiling the water to remove most of the Chlorine taste.
4. [Purchasing a pitcher with a carbon filter](#) (available at Lowes and Home Depot)

Thank you for your cooperation during this time,
